SEOUL NATIONAL UNIVERSITY
Seoul National University
The World’s Leading Knowledge Community

The mission of Seoul National University in the twenty-first century is to create a vibrant intellectual community where students and scholars join together in building the future.
The SNU main gate has been the most widely known monument to represent Seoul National University since it moved to its current location in Gwanak in 1975. Designed with the first consonants of the Korean name of Seoul National University, ‘ㄱ’, ‘ㅅ’, ‘ㄷ’ from 국립 서울 대학교, it resembles the shape of a key. The main gate symbolizes a key to truth, the university’s motto.

The SNU emblem has a laurel entwined with a crossed pen and torch standing behind an open book and a shield. On the opened pages of the book, the motto reads ‘Veritas Lux Mea’, Latin for ‘Truth is my light’. The pen and torch illustrate the university’s determination to enlighten the nation through education and research. The shield in front of them stands for the university’s will to retain its commitment, while the laurel symbolizes the honor of it.
